

Bitter End

Good Commies

The words that you said they still ring in my head

Don't you know?

We say goodbye with a tear in our eye

Oh, where'd you go?

It's alright you can sleep tonight

Knowing you'll always live on in a song

Farewell to old friends

Let's raise a glass to the bitter end

Farewell to old friends

Will you be the same when we see you again?

Remember the days when we'd laugh as you'd play

Who'd have known?

The water would come and just take you away

Oh, where'd you go?

It's not alright, I can't sleep tonight

Knowing you should have played on, on and on

Farewell to old friends

Let's raise a glass to the bitter end

Farewell to old friends

Will you forgive me when I see you again?

You had a good time, drinking all of our wine

After the show

We all rode the wave of that crazy parade

Oh, where'd you go?

What happened to the ones we knew

As long as I'm the shiniest star, oh, there you are

Farewell to old friends

Let's raise a glass to the bitter end

Farewell to old friends

We'll still be here when you come 'round again
