This Pill

Pete Murray

Two years And I feel like I'm over this pill Is the reason I wonder and still You just light up the wayI burn Like the sunsets above me, two feet My eyes are so tired, I can't sleep And it's only a dayAnd all of this heart is waiting for you And all of this mind falls apart for youTwo years And I feel like I'm over this pill Is the reason I wonder and still You just light up the wayYour soul Seems to guide like a bird and still Even though with no word, I will Hold a place for your loveAnd all of this heart is waiting for you And all of this mind falls apart for youTwo years And I feel like I'm over this pill Is the reason I wonder and still You just light up the way
