

I Wish I Had

Stroke

Yeah
Every stone that's turned
 Every lesson learnt
Every moment fixed up always
 Can you find what's lost?
 Realize the cost?
Undermining the boss just don't pay
 Every image flash
 For the excess cash
Every road that's leading nowhere
 It's the line you follow
 Cream you swallow
 Hate gets hollow always
 And you still won't stop
 Running till you drop
Thinking you might reach
 The sky
 (The sky)
So the only question left
 To ask is why
Why [x2]I wish I had a gun
 So I could get wasted
 Sometimes you win
 And sometimes you lose
Sometimes there's nowhere left you can run to
 And if I had a gun
 I'd want to get wasted
 One day it's hard
 The next time it's cool
Sometimes there's nowhere left you can run to
 Every mourning wake
 Every demon shake
 Gonna come full circle someday
 Every buried past
 Every time the last
But it just don't wash up no way
 All the shameful waste
 For the stone you crave
 Every guess you hazard, gone
 And the only road you know

Is further on
On [x2]
Yeah I wish I had a gun
So I could get wasted
Sometimes you win
And sometimes you lose
Sometimes there's nowhere left you can run to
And if I had a gun
I'd want to get wasted
One day it's hard
The next time it's cool
Sometimes there's nowhere left you can run to Every powder trip
Every girl you slip
Underneath, it's over one day
For the great white lie
You hide
Then you die I wish I had a gun
So I could get wasted
(So I could get wasted)
Sometimes you win
And sometimes you lose
Sometimes there's nowhere left you can run to
(Oh, yeah)
And if I had a gun
(Stone free)
I'd want to get wasted
(As free as the wind blows)
One day it's hard
(As free as the rocks glow)
The next time it's cool
(Stone free) [x2]
Sometimes there's nowhere left you can run to [x8] Yes, this is free
(I wish I had a gun)
Stone free [x8]
