

# The Ultimate Vacation

## Chamillionaire

Get away

Ay, you got to have a passport if you rollin' with me

We can hit Jamaica or we can chill in France

Roll with a playa, you could bring a friend Yeah, you in the presence of some playas

Chamillitary, do it big

We could hit Hawaii or the Caribbean

We could do it major, chillin' on the sand You're stressin' every day 'cause the way that you're livin'

See it in your face, ain't no fakin' the feelin'

We could get away and be chillin'

We could get away and be chillin' We could go today, get away for a minute

Party every day, do your thang to the rhythm

We could get away, get away

We could get away and be chillin' Ay, I got money, got paper, ay, I got plenty of cheddar

Ay, so we treatin' to dinner, we know it ain't less in forever

Ay, the bartender, remember to bring the straw with the umbrella

Ay, we just drinkin' and thinkin' of a way that we can make life better Yeah, coconut with the umbrella baby

And the Rhianna soundin' chick is the 'Umbrella Lady'

It ain't no carpet on the floor like they renovatin'

Palm trees like my old homeboys, hella shady Time flies so you know the clock is passin' through

Kick the sand is the only other task to do

You know my fan base is international

Their fan base is only within an avenue Uh, go wherever that you plan

G-5, I show 'em how to fly like Peter Pan

Get a lobster or anythin' that she demands

If it isn't then it's somethin' that you will never eat again Step off the yacht if you wanna see the land

I'll take you to the sun if you really need a tan

Water look like oxygen any way you stand

'Cause the ocean's so clear you look down and see the sand You're stressin' every day 'cause the way that you're livin'

See it in your face, ain't no fakin' the feelin'

We could get away and be chillin'

We could get away and be chillin' We could go today, get away for a minute

Party every day, do your thang to the rhythm

We could get away, get away

We could get away and be chillin' Listen if money talks, my paper probably speak Greek

I'm in a different continent like each week

Seein' daylight and they gon' probably be sleep

No cell phone, send a telegram to East Beach Females is like, yo' chick is so hot to me

Can we all chill? I turn maybe to possibly

You know my beach house is what you got to see  
Paper and property, walkin' game of monopoly  
My helicopter lands on the boardwalk  
Where the residents ain't understandin' your talk  
The cliff ends and the salt water pours off  
Think what you think but you'll never have a poor thought  
Water's so warm that the fishes isn't cold  
And the air is so open that the pigeons get exposed  
Didn't I remind you to bring your swimmin' clothes?  
No, I didn't on purpose, now your swimmin' in your whoa  
Ay, I got money, got paper, ay, I got plenty of  
cheddar  
Ay, so we treatin' to dinner, we know it ain't less in forever  
Ay, the bartender, remember to bring the straw with the umbrella  
Ay, we just drinkin' and thinkin' of a way that we can make life better  
It's all good, long as you don't turn on me  
like a doorknob  
And try to make my flow stop like a cork does  
And we'll be in Hawaii eatin' corn cob  
Pinnin' a flower in your hair like a corsage  
Said I shouldn't leave but you know I didn't hear a thing  
10 karat earrin' blockin' out my hearin'  
Never go back is exactly what they're fearin'  
Know plenty Jamaicans so I brought you to the real t'ing  
Rudebwoy, sick with it and I'm givin' flu  
It's like I just appeared here but I really flew  
They say it just to rhyme, this is what I really do  
Dj vu, go repeat it when the year is through  
You're stressin' every day 'cause the way that you're livin'  
See it in your face, ain't no fakin' the feelin'  
We could get away and be chillin'  
We could get away and be chillin'  
We could go today, get away for a minute  
Party every day, do your thang to the rhythm  
We could get away, get away  
We could get away and be chillin'
