Anchor

Cailee Rae

Everybody tried to warn me you were poison from the start we had a love just like the movies put a spell right on my heart I guess that I was to blind I was to dumb to see it I didn't wanna be right guess I didn't wanna believe it that I was moving to slow watching life just pass me by now I'm going nowhere you're the reason why you're something like an anchor that won't let go of me you're something like an anchor now I can barely breathe I don't want to go down if I do I'm gonna drown you're something like an anchor I can't I can't now we're sitting at this table with nothing left to say say you want to stay together but I think it's just too late cuz I just want to be free I cannot do this forever no no this is not me I deserve something better but I was moving too slow watching life just pass me by and now I'm going nowhere you're the reason why you're something like an anchor I won't let go of me you're like an anchor now I can barely breathe I don't want to go down if I do I'm gonna drown you're something like an anchor I can't I Can't Take These Chains off me I don't want to go under Take These Chains off me I don't want to go under Take These Chains off me I don't want to go under Take These Chains off me you're something like an anchor I won't let go of me you're something like an anchor now I can barely breathe I don't want to go down if I do I'm gonna drown You're Something like it anchor I can't I can't breathe
