

# Get Off

## Republica

One more day on the roller coaster

If I scream they spin me faster

Everything gone backwards

And it's upside down

Stop me dead, oh I think I'm falling

Falling from the fourteenth story

One more line and it will be morning

Hit the floor

So stop the traffic

Stop the clock, stop the lot

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

One more job in the supermarket

One more kick to get me started

Everyone get on board

This ship is sinking

Hanging out I don't want to be there

Took a train to another city

Chinese food and a tabloid frenzy

Why I'm here is mystery to me

So stop the traffic

Stop the clock, stop the lot

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

And like a speeding car you want more, more, more

And like a rattlesnake I hate

I wanna get off, I wanna get off with you

And like a speeding car you want more, more, more

And like a rattlesnake I hate

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

I wanna get off, I wanna get off with you

I wanna get off
