Witch Hunt

Stratovarius

The witch is worried, which is bitch?
Take both of them in and do a spin
Experimenting with fingers spreading
Lips concealing the secrets of the joyWitch-hunt is coming to town
You better look around
Witch-hunt is coming to town
They'll see that you'll get foundThe witch is clever
Forget that never
She makes her revenge
All in the endTwo at the time
Bell tolls inside
Casting joy all over you
Oh boyWitch-hunt is coming to town
You better look around
Witch-hunt is coming to town
They'll see that you'll get foundThe whip is ready
Standing steady
In between the hands
By your commandDo what you have to do
And she's glad to
Take your little life
And ride awayWitch-hunt is coming to town
You better look around
Witch-hunt is coming to town
They'll see that you'll get found
