Give It Your Worst

False Advertising

Talking for the sake of talking,
Can't get away can't get away

Seconds they spill over until,
I'm at the end looking back over nothing

Give it your worst,
Give it your worst,
It's all the same to a killer
x2

Dwell on the past,
Resentment en mases,
Leave it to soak
Leave it to soak

Relentless decay,
Deliberate delay,
Always the same when I want to be okay

Give it your worst,
Give it your worst,
It's all the same to a killer
x2

And this feeling,
Won't go away,
So I change
X2

So I change
I change,
Won't go away,
So I change,

Give it your worst,
Give it your worst,
It's all the same to a killer
x2"
