

Vegas

All Time Low

Advisory - the following lyrics contain explicit language:

Tonight we lie awake
Remember how the coffee made us shake
On those long drives?
One more long nightAnother seven days
Heartbeat racing the interstate, my home tonight
For one more long night
I'm sure as hell the happiest I've ever beenWe can't hide, we let go
We've got more than we know
My friends are a different breed
My friends areThere's a ghost in this room
I think I'll name it after all of you
And watch it hang over my bed like decorations
Celebrated memories that came and went
In light of all that time we spent
Listening to everything our parents told us not to take inNow make a change, I'm counting down
The mile marks to every town
And falling more in love
With the distance put between usWe can't hide, we let go
We've got more than we know
My friends are a different breed
My friends are everythingMake this last, take it slow
We've got it all figured out for now
So, let us live our lives without a doubtTonight we lie awake
Remember how the coffee made us shake
On those long drives?
One more long nightAnother seven days
Heartbeat racing the interstate, my home tonight
For one more long nightFrom coast to coast I'll make the most
Of every second I've been giving with this crowd
Without a doubt, you're all I dream aboutAt night we lie awake
With stories taking us back
To the nights we felt alive

The nights we felt alive I would've married you in Vegas
Had you given me the chance to say, "I do"?
Couldn't make it anymore obvious, could you?
Be anymore obvious I would've married you in Vegas
Had you given me the chance to say, "I do"?
Couldn't make it anymore obvious, could you?
Be anymore obvious, could you?
