Careful How You Go

Kim Richey

On a midnight survey of the town
No place special, just around
The snow it fell like feathers from the sky
All the good people were in their beds
With reading lamps above their heads
And curtains drawn against the nightChorus
Oh quiet now, softly now
Careful how you goDoor to door to garden gate
People waiting on buses have left too late
Too late now, they're wishing they were home
It gets slippery here so watch your step
We don't wanna break the spell just yet
The ice is thin, but maybe it'll holdChorus x 2Ooh etcOn a midnight survey of the town
No place special, just around
The snow it fell like feathers from the sky
All the good people were in their beds
With reading lamps above their heads
And curtains drawn against the nightChorus x 2
