

# Keep Mediocrity At Bay

[Van Morrison](#)

You gotta fight every day to keep mediocrity at bay  
You got to fight every day to keep mediocrity at bay  
Got to fight with all your might not to get in the bleeding heart's way  
You got to fight for your rights, you can't bury your head in the sand  
You gotta fight for your rights, you can't just bury your head in the sand  
Politics and religion, superstition go hand in hand  
Well you're going through the motions  
And they can't hear a word you say  
Well you're going through the motions  
They don't want to hear a word you say  
Got to keep boredom at bay and keep mediocrity away  
Got to fight every day to keep mediocrity at bay  
Got to fight every day to keep mediocrity at bay  
Got to fight with all your might not to get in the bleeding heart's way  
You got to fight with all your might not to get in the bleeding heart's way
