Second Voice

Hop Along, Queen Ansleis

When you close your eyes
There is no time to understand
No time to realize
You feel the fire as it burns inside
You hear a second voice
It's speaking to you tonight
You hear a second voice
It's speaking to you tonight
Deep in the night
You're walking through the rain
You feel the raindrops
Beating on your head
In times like these you
Think about everything
But we know
They don't understand
You hear a second voice
It's speaking to you tonight
You hear a second voice
It's speaking to you tonight
This second voice
Follows me day by day
This second voice
Is every time so deep inside
This second voice
Observes me through my life
This second voice
Is every time so deep inside
You hear a second voice
It's speaking to you tonight
You hear a second voice
It's speaking to you tonight
