

Find My Heaven

Power Quest

When the thunder rolls, lightening in the sky
Do you carry on regardless even though you all may die ?
And when the sun burns down, draining you of life
Do you crumble in the desert; do you fight to stay alive ? So we ride over the mountains
Over the mountains that stand in our way
We will fly, higher and higher
Searching for destiny. Where will I find my heaven ?
Can it really be here on earth ?
How can I know what's waiting ?
How will I know what's meant for me ? When the devil calls, devil calls your name
Do you run like little children, running from the game ?
And when the evil lies buried near your heart
Do you turn against your people, tearing them apart ? So we ride over the mountains
Over the mountains that stand in our way
We will fly, higher and higher
Searching for destiny. Where will I find my heaven ?
Can it really be here on earth ?
How can I know what's waiting ?
How will I know what's meant for me ? (solo) See the shadowland, hidden from the light
Feel the terror rising on this cold deserted night
Broken promises, not to be fulfilled
Never trust a demon, never fall under his will. So we ride over the mountains
Over the mountains that stand in our way
We will fly, higher and higher
Searching for destiny. Where will I find my heaven ?
Can it really be here on earth ?
How can I know what's waiting ?
How will I know what's meant for me ? Where will I find my heaven ?
Can it really be here on earth ?
How can I know what's waiting ?
How will I know what's meant for me ?
