

# Scott Bakula

## Sunspot

I used to watch Quantum Leap every night with my girlfriend  
Al and Sam, they leaped through time and it felt like they were my best friends  
Ziggy said there's a 98 percent chance of a broken heart

Scott Bakula, never played Dracula  
Laid down the smackula on the bad guys  
Well he was honest and sharing and loving and caring  
The kind of guy who would always do the right thing  
Clever and handsome and so damn sensitive  
And I'm not...Scott

He was smart enough to tame the fire in that self-empowered Murphy Brown chick  
I even watched Lord of Illusions even though I thought the movie kind of sucked  
Ziggy said there's a 98 percent chance that the ending's sad

Scott Bakula, never smoked crackula  
Played quarterbackula in Necessary Roughness  
Well he was honest and sharing and loving and caring  
The kind of guy who would always do the right thing  
Clever and handsome and so frickin' sensitive  
And I'm not...Scott

I'm not, I'm not, I'm not Scott

He's nice enough to play a gay guy, yeah he's cool enough to star in sci-fi  
Well he's man enough to helm a starship  
and I'm the type of guy who would feel left a bone chip (????)  
Ziggy says there's a 98 percent chance that I'm a prick

Scott Bakula, never played Blackula  
Played quarterbackula in Nexessary Roughness  
Well he was honest and sharing and loving and caring  
The kind of guy who would always do the right thing  
Clever and handsome and so frickin' sensitive  
And I'm not, and I'll never be Scott Bakula  
No one can love you like Scott Bakula can love you

I'll never be Scott Bakula  
He possesses all the traits that I'm sorely lacking  
Sometimes I just wanna punch him in the sackula  
You know, 'cause I'm not...
