

Expecting More from Ratty

Scooter

We still represent, represent Well, I can't change, I just wanna do it
On the microphone just get into it
Come on tonight from left to right
Everybody now get ready for the night Tough like steel and dangerous
We gonna rock the house, it's still like this
No time to chill so keep on moving
Get into the place, MC is grooving Tough like steel and dangerous
We gonna rock the house, it's still like this
No time to chill so keep on moving
Get into the place, MC is grooving Expecting more from Ratty
Expecting more from Ratty
Expecting more from Ratty
Expecting more As a matter of fact in '92
I can't explain, it's up to you
You know what I mean, it's a freaky scene
And things have changed a lot in between So come on tonight and let them go
For those about who left the show
I recommend to join the case
The last call to rock the place So come on tonight and let them go
For those about who left the show
I recommend to join the case
The last call to rock the place Expecting more from Ratty
Expecting more from Ratty
Expecting more from Ratty
Expecting more We still represent, represent
