Boy, you know, I'm feeling you
And what you're saying is so true
I know, you see my shining now
My style is super fine
Well, it's all left behindLet's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make itLet's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stoppingThere's things I'd seen
They're on another side of me
There's a whole other side of me
'Cause I play my tools to get up and get out
I've been waiting aroundLet's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make itLet's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stoppingNow listen up, shorty, I'm here to do something
They gonna talk, they gonna blame
They gonna put it in your name
No more hop-scotch, pink and purple pola dots
The black top,slide in the jaguar
You the driver not a bike riderPush button, loose cracks, saying through the visor
Um, tell them hello, hello then goodbye, goodbye
Hold up, now they wanna carpool
She used a brown bag, now she carrying plastic
Get that money young woman
That's a game drastic, this, here's a classicPlaya baby, holla baby, they tell me to go very
Finally they can jammy, beat this miss, chubby late-tress

Grant your wish, perfection, please, don't take your list
Please list your trick, it don't matter how just get
Rich, rich, rich, rich, richNo, no, noLet's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make itLet's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stoppingLet's go out tonight
Boy, we're gonna celebrate 'cause the feel is right
Let's go out tonight
'Cause I like, 'cause I take what I have to make itLet's go out tonight
Boy, you know I'm feelin' good like you're my boo
Let's go out tonight
Get the cab, drive a car, get away, ain't no way stopping
