

Harmonic Generator

The Datsuns

I'm gonna push the button flick the switch today
'Cause you got nothing I want, I got nothing to say
It's been 16 days since I seen your ass
Heading to the city, you think your high class
A harmonic generator, inter modulator
A harmonic generator, inter modulator
Wearing next to nothing, she's out of control
She likes to shake what she got from her head to her toe
She got big yellow eyes lighting up like Christmas
Turning tricks baby, electric mistress
A harmonic generator, inter modulator
A harmonic generator, inter modulator
Yeah oh
Like a harmonic generator, inter modulator
A harmonic generator, inter modulator, yes
Come on, now let's shake it down
Down to a harmonic generator
"Here we go", I said, yeah, yeah, what's up? Yeah
Well like a harmonic generator, inter modulator
A harmonic generator, inter modulator
A harmonic generator, inter modulator
A harmonic generator, inter modulator
A harmonic generator, inter modulator, yeah
