

Okay

Usher

I can't believe my eyes
Connects your sexiness body
The way you do it with your hands up
I just wanna be all overLet me rock, with you
Don't let nothin' interrupt this groove
Goin' at it like we 'bout to
She know when you like, you're my girlYou probably sayin' that's a damn shame
I don't even know your name
I know it won't probably matter tonight
'Cause you been all on me I'm like, okaySo guess we can take this here home
So we can make a love song
I can be the best part of you wakin' up
Shawdy, now how that you hear that sound, okayAh, ha, yeah, I see you wanna take it slow
Go in drop it to the floor real low, ooh
You know I want you back 'cause I been all on that ass
And you ain't lookin' at me sidewaysAnd the DJ is playin' the last song
And it's comin' down to our last call, baby
This slow jam is specially dedicated
We've been away for the night to end, come onYou probably sayin' that's a damn shame
I don't even know your name
I know it won't probably matter tonight
You been all on me I'm like, okaySo guess we can take this here home
So we can make a love song
I can be the best part of you wakin' up
Shawdy, now how that you hear that sound, okayOoh, yeah, 'cause outside with maybe if you ready to run
Ooh, love that I got you opened up
Curious of mine to know what's on your mind, girlGirl, we been at it so long
I can't wait, just want to make sure were on the same page
Come on, come on, come on
I be on some other shit when I look at talk
And I know youYou probably sayin' that's a damn shame
I don't even know your name
I know it won't probably matter tonight
You been all on me I'm like, okaySo guess we can take this here home
So we can make a love song
I can be the best part of you wakin' up
Shawdy, now how that you hear that sound, okayYou probably say that's a damn shame
I don't even know your name
I know it won't probably matter tonight

You been all on me I'm like, okay
So guess we can take this here home
So we can make a love song
I can be the best part of you wakin' up
Shawdy, now how that you hear that sound, okay
