

# Toothless People

## "Weird Al" Yankovic

They only show you their gums when they smile  
Ain't got a tooth in their heads now, how vile  
Only can eat things like pudding and apple sauce  
They never have to buy toothpicks or dental floss  
Hey, stand up  
Toothless people  
The breath is lethal  
Wanna tell ya  
Hey, come on, stand up, get on your feet  
Toothless people  
Old and feeble  
What I say  
No more of those pearly whites will they possess  
Their oral hygiene is frightful, a mess  
Lots of em suffering from trench mouth and gum disease  
At least they dont have to worry bout cavities  
Hey, stand up, take out your teeth  
Toothless people  
Old and feeble  
Oh, yes  
You can brush em, you can floss em  
Theyre something you just cant ignore  
If you lose em you're in trouble  
Cause the tooth fairy wont come no more  
You need something to show your dentist  
The next time he makes you say, ahh  
You dont wanna have to wind up  
Eating all of your food through a straw  
Like toothless people  
Toothless people  
You better brush your teeth now  
Toothless, toothless, toothless, toothless people
