

In a Week or Two

Diamond Rio

In a week or two
I would have been ready
I would have known what to say
But I missed my chance
When the words, "I love you"
Came just a little too late
In a week or two
I was gonna bring you diamonds
In a week or two
A long, long string of pearls and
We would've run down to the river at night
Sailed away, just me and you
In a week or two
A little more time
Was all I needed
But somehow fall became spring
But put off today
You can do tomorrow
Sometimes you don't do a thing
In a week or two
I was gonna bring you diamonds
In a week or two
A long, long string of pearls and
We would've run down to the river at night
Sailed away, just me and you
In a week or two
These words in my heart
Never had a chance to be heard
But I'm telling you now
For all that it's worth
In a week or two
I was gonna bring you diamonds
In a week or two
A long, long string of pearls and
We would've run down to the river at night
Sailed away, just me and you
In a week or two
