

# Draw Your Brakes

Scotty

Hmm, hmm

All I need from you  
Is a good conversation, conversation  
'Cause it gives me sweet inspiration  
And to tell you  
I never felt this way before  
I know there is someway today

Love your brothers  
Love your sisters

And to tell you  
I must admit you've got me thinking  
There were times I thought that  
I was thinking  
But I always want to be in that position  
Where I can see more clearly

Now I must admit that  
You've got me thinking

Love your brothers  
Love your sisters

And to tell you  
I must admit you've got me thinking  
There were times I thought that  
I was thinking  
But I always want to be in that position  
Where I can see more clearly

Now I must admit that  
You've got me thinking

Love your brothers  
Love your sisters
