

# Moongirl

[stellastarr\\*](#)

Outside, there's a spaceship  
Blocks the sun  
Forms a shadow hovering over me Yesterday I had missed it  
But today, there's a girl who shows me everything I said: ohhh, she was the moment  
I said: ohhh, she was the moment  
I said: yeah, moongirl Let's surf on the horizon  
To the moon where the world will look much clearer to me One day I'll be finished  
But today, there's a girl who shows me everything I said: ohhh, she was the moment  
I said: ohhh, she was the moment  
I said: yeah, moongirl
