

# Break the Walls

## Fitz & The Tantrums

Hey! Break the walls. [x4]Through the epic unconsciousness  
Through the valley of beatin' chests  
Turn the sound down, still hear the roar  
Let the beast out, what did you come for? Give me a sledgehammer and give me strength  
Watch the world come crumbling down  
Cut me loose I seek the truth  
I bet the freedom, the freedom will carry me Hey! Break the walls [x4] To the wild I travel the unknown  
The fathers pray out to be overthrown  
Turn the lights down oh to be blind at peace  
Let the beast out and watch it bare its teeth Give me a sledgehammer and give me strength  
Watch the world come crumbling down  
Cut me loose I seek the truth  
I bet the freedom, the freedom will carry me Hey! Break the walls [x4] Kick and scream fight for the unseen  
Fight for harmony, fight for you and me [x4] Hey! Break the walls [x8]
