

The Beijing Cocktail (Radio Edit)

The Blackout

I've gone and said it
Just so you know what's on my mind
I walk away now
This is over and there's no turning backThe way you parade
It's such a crime
I think about us
Your pretty eyes
Still give me heart attacksAnd all we have is all that's left
And it's for the best
(We've been here before)We've fallen apart
(You knew that it was over)
You knew this from this start
(We've been here before)
You've fallen apart
(You knew that it was over)
You knew this from this startI've gone and said it
Just so you know what's on my mind
I walk away now
This is over, and there's no turning backThe way you parade
It's such a crime
I think about us
Your pretty eyes
Still give me heart attacksAnd all we have is all that's left
And it's for the best
(We've been here before)We've fallen apart
(You knew that it was over)
You knew this from this start
(We've been here before)
You've fallen apart
(You knew that it was over)
You knew this from this startI'm the devil from above, just you wait and see
I can make any girl fall in love with me
I'm the devil from above, just you wait and see
I can make any girl fall in love with me
(We've been here before)We've fallen apart
(You knew that it was over)
You knew this from this start
(We've been here before)
You've fallen apart

(You knew that it was over)
You knew this from this startNo one can save us
No one can save us
No one can save us
No one can save usNo one can save us
No one can save us
No one can save us
No one can save us
