

# She's so Fly

## Cris Cab

She will only stay if you let her fly away  
Once a caterpillar, now a butterfly  
Ive seen her fly fly fly fly  
With them wings shes so fine  
Ive seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so fly  
When the broken wings got clipped she learns to fly again  
Shes so fly  
Shes so fly  
Shes so fly  
Shes so fly  
When the broken wings got clipped she learns to fly again  
Shes so fly Shes the perfect 10  
Maybe up to 11  
Look closer, shoes so new  
Like the mattress of a movie scene  
She knows shes the star  
Shes so fly  
Well undo it and itll make a bum  
When she smile just turn me on  
Like the worst in my favorite love song  
Shes something like a phenomenon  
Shes so fly She said I never kissed a stranger  
I said I never kissed an angel  
I got this feeling that I wanna share  
Youre the only one that can take me there  
Once a caterpillar, now a butterfly  
Ive seen her fly fly fly fly  
With them wings shes so fine  
Ive seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so fly  
When the broken wings got clipped she learns to fly again  
Shes so fly  
Shes so fly  
Shes so fly  
Shes so fly  
She will only stay if you let her fly away  
Shes so fly  
Shes so fly Shes got me dancing stupid  
Guess all my words are useless  
She knows just how to use it

Shakes her hips, get sushi choose it  
And I hope its me  
Girl you are all I see  
The way you move in front of me  
Shes so fly  
So set your body free  
And girl come close to meShe said I never kissed a stranger  
I said I never kissed an angel  
I got this feeling that I wanna share  
Youre the only one that can take me thereOnce a caterpillar, now a butterfly  
Ive seen her fly fly fly fly  
With them wings shes so fine  
Ive seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so flyWhen the broken wings got clipped she learns to fly again  
Shes so fly  
Shes so fly  
Shes so fly  
Shes so fly  
She will only stay if you let her fly away  
Shes so fly  
Shes so flyWhen she catwalks just drive  
Brazilian babies, she has more colors than the beeka  
Shes so hot, baby the hell follows  
Cuz they do it too tight, Marilyn Monroe  
Seein Tenna, black magic woman  
Ancient Cuban, European, middle eastern  
All American but then in on the fantasy  
Even girls are like dreams to meShes so fly  
Shes so fly  
Shes so fly  
When the broken wings got clipped she learns to fly again  
Shes so fly  
Shes so fly  
She will only stay if you let her fly away  
Shes so fly  
Shes so fly  
Shes so fly
