## Agony in the Garden

Verse Broken the moon  
Look what you've done  
We've fallen from grace  
Now there are none Waters they rise  
Now it's begun  
Wrestle your demon  
Your end it will come Chorus Throw your demon  
Into the sun, into the sun  
Throw your demon, into the sun  
'Til it's done  
Throw your demon  
One by one into the sun  
Throw down, it's done Verse Burning flames will shatter  
In a world made of stone  
Hear the dying children's laughter  
In a hell so new it's old Darkened sacred waters  
Go on and fill them with your name  
You can rise above the wreckage  
Go on and break your mortal chains Chorus Throw your demon  
Into the sun, into the sun  
Throw your demon  
'Til it's done  
Throw your demon  
One by one into the sun Break your demon  
Break your demon down  
Before, before the sun Broken and bleeding and  
Fighting and grieving and  
Kicking and screaming  
Into, into the sun
