Strength in Numbers

Channel 3

Unity a specialty surrounded by a mass
Individuality the sound of breaking glass
Insulated by the boys never face a threat
Try to argue with our logic see what you willStrength in numbers, power in a crowd
Strength in numbers, noise is getting loud
Strength in numbers, go with the rest
Strength in numbers, never leave the nestGimme modern problems I get lost in a crowd
Friends, peers, family for a modern shroud
Eat up all the gossip and we go for current trends
Who needs independence when you got a lot ofStrength in numbers, power in a crowd
Strength in numbers, noise is getting loud
Strength in numbers, go with the rest
Strength in numbers, never leave the nestMother raised a snake a void responsibility
I lack a solid will and I lack integrity
Teenage confusions send me to the huddled flock
You think I'm ready for the world you're in for quite a shockMy insecurity leads me to dress like this, hang out here
Put this music in your ear
Individuality, so frightening to the crowdStrength in numbers, power in a crowd
Strength in numbers, noise is getting loud
Strength in numbers, go with the rest
Strength in numbers, never leave the nest
