

Dream Within a Dream

The Downtown Fiction

Well they know just what you're thinking
And they know just what you'll do
They know where you are going
They'll be coming after you(Singin' oo-hoo-oo)
(Take me back, I want you to take me back)Take me to the place I was before
The future's waiting right outside your door
All the people you know
All the things that you've shown or seen
A dream within a dream?Your existential problems
Aren't special now at all
Ubiquitous depression
Is the writing on the wall(Singin' oo-hoo-oo)
(Take me back, I want you take me back)Take me to the place I was before
The future's waiting right outside your door
All the people you know
All the things that you've shown or seen
A dream within a dream
