Good to Be Alive

Jason Gray

Hold on
Is this really the life I am living?
Cause I don't feel like I deserve it
Every day that I wake and every breath that I take youve given
Right here, right now
While the sun is shining down
I wanna live like there's no tomorrow
Love like I'm on borrowed time
It's good to be alive
Hold on
If the life that we've been given
Is made beautiful in the living
And the joy that I get brings joy to the heart of the giver
Then right here, right now
This is the song I'm singing out
I wanna live like there's no tomorrow
Love like I'm on borrowed time
It's good to be alive
I wont take it for granted
I wont waste another second
All I want is to give you
A life well lived to say, thank you
