# Call All Your Reserves

## Halifax

Call it, an insecurity
The radio's down
Your hands are runnin' through my hair
They're runnin' through my hair
And now we're set for a crash course
And now we're on the verge
We're set for a crash course
And now we're on the vergeCall all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everyday
Call all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everydayCall it, an insecurity
The radio's down
Your hands are runnin' through my hair
They're runnin' through my hair
And now we're set for a crash course
And now we're on the verge
We're set for a crash course
And now we're on the vergeCall all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everyday
Call all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everydayCall all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everyday
Call all your reserves
Don't let the world be wasted this way
And I know, you'll be missin' me
Missin' me everydayCall all your reserves
You'll be missin' me, missin' me every day
Call all your reserves
Missin' me every day

Call all your reserves
You'll be missin' me, missin' me every day
Call all your reserves
Don't let the world be wasted this way
