## **Terrified**

## **Story of the Year**

Here in this town, safe and guarded

We call it home, a feeling that we share

Now leave this place, clinging to hope

In this midnight prayer

If we hold our breath, float beyond this

We'll be reborn, I will carry us homeAre you still alive? Are you scared inside?

Providence is blind when you're terrified

Are you still alive? Are you scared inside?

When we've reached the end of the road

I will carry us homeOh no, if all our sin was only a hope

And meaningless and true

Now will I expire holding the world

In safety for you

If we make it through and I can save you

With this heart I know, I will carry us homeAre you still alive? Are you scared inside?

Providence is blind when you're terrified

Are you still alive? Are you scared inside?

When we've reached the end of the road

(Reached the end of the road)

I will carry us homeAnd now I'm so far away from you

Will I be making any difference

After leaving you all alone?

And now I'm so far away from homeCan I justify my actions

After leaving you here in this town?

Safe and guarded, we call it home

A feeling that we sharedAre you still alive? Are you scared inside?

Providence is blind when you're terrified

Are you still alive? If you're scared inside

(I will carry you home)

I will carry us homeAre you still alive? Are you scared inside?

Providence is blind when you're terrified

Are you still alive? Are you scared inside?

When we've reached the end of the road

(Reached the end of the road) When we've reached the end of the road

(Reached the end of the road)

I will carry us home, carry us home
