

# Follow Me Down

## Since October

How many times will I fall  
Before I finally lose it all?  
All I want is everything  
All I need is just you and nothing Follow me down, down  
Follow me, follow me  
Follow me down  
Follow me, follow me My struggle is not flesh and blood now  
This pride I loved is staring me down  
Constantly it's taking me  
Far away from the place that I should be Follow me down, down  
Follow me, follow me  
Follow me down  
Follow me, follow me Follow me down  
This is all you'll ever know  
Follow me, follow me Fall down, fall down, fall down  
Fall down and you'll see Fall down, fall down and you'll see  
Who you are as you  
Fall down, fall down and you'll see  
Who you are as you follow me down Follow me down  
Follow me, follow me Follow me down  
This is all you'll ever know  
Follow me, follow me down  
Follow me down, follow me down
