

Gypsy

Dio

She was straight from hell
But you never could tell
'Cause you were blinded by her light
She could crack your brain
With magic pain
And turn a paler shade of white Well I was on the free
Just me and me
And just about to sail When I heard the voice
Said you got a choice
The hammer or the nail You'll be ridin'
You'll be ridin' on the gypsy
On the gypsy Well I rolled the bones
To see who'd own
My mind and what's within And it's a given rule
That we're all fools
And need to have a little sin So I'm ridin'
Well I'm ridin' on the gypsy
On the gypsy queen Well she was straight from hell
But you never could tell
'Cause you were blinded by the light So she cracked my brain
With magic pain
And turned my left around to right, right So I'm ridin'
I'm still ridin'
Yes I'm ridin' on the gypsy
On the gypsy queen
She's mean
