

# Meant To Be

[Ruben Studdard](#)

Just take a look at how we are  
What do you see?  
Let's try to work it put  
Talk about figure out it's there's anew you and me  
When we have love for ourselves  
Only think can we love someone else  
If we make a values we will be all that we meant to be  
Yeah, yeah  
There was a time when I thought I had lost it all  
But you still by my side, and a God can be .you start my '  
When it hurt to get through my day  
You will be strong and you sure me the way that we hold the key  
We can be all that we meat to be  
Now that my heart it's free  
You know I feel your love all over me  
You shine a lot though darkness  
Now I can see  
Now I can see  
Ooh baby hope when I was on the road all alone  
And when I was feeling down  
You pick me on, press me off  
You help me move on  
Now I have love for myself so it's time to love someone else  
'Cause we hold the tears more then we even  
With open yes we realize  
There will hold the key  
Of all that we meant to be  
All that we meant to be  
All that we meant  
We can be anything we want  
If we just believe that we can be all that we meant to be
