

# Rise Up

## Attila

This is for my people working hard all days  
Like a [?] the system where you slave away  
Skipping school just to chase the dream  
Where you didn't just make it as me  
[?]  
Fuck the guidelines that focus on you  
You say fuck the system, fuck the rules  
Fuck the politicians and fuck you too We put our lives on the line! This is how do it  
This is how we roll  
Let's forget the world  
When we lose control  
This is how do it  
This is how we roll  
Let's forget the world  
When we lose control! Fuck the news stations on TV  
Fuck the lies that are feeded to me  
We know better than to just give in  
[?]  
Don't you see what's going on  
Open your eyes and [?] We put our lives on the line! This is how do it  
This, is how we roll  
Let's forget the world  
Where we lose control  
This is how do it  
This is how we roll  
Let's forget the world Take me home [?] This is how do it  
This, is how we roll  
Let's forget the world  
When we lose control  
This is how do it  
This is how we roll  
Let's forget the world  
When we lose control!
