Box

Asian Dub Foundation

Advisory - the following lyrics contain explicit language:

See me, hear me

But still you try to box me in

You think you know my mind by the color of my skin

See me, hear me

But still you try to box me in

You think you know my mind by the color of my skinADF back with a lyrical death threat With you ignorant attitudes what the fuck did you expect?

Well mash up your stereo

With a typical body blowAsian distortion

Better tread it with caution

Better treat it with cautionEyes permanently closed you tell me everything's alright

Chemical escape youre desensitized

Sitting cross-legged with your joss sticks and your flutes

Just taking and faking whats easy no respect for our rootsSee me, hear me

But still you try to box me in

You think you know my mind be the color of my skinADF back with a lyrical death threat

With you ignorant attitudes what the fuck did you expect?

Well mash up your stereo

With a typical body blowAsian distortion

Better tread it with caution

Better treat it with cautionMany noises and voices and messages in the blender

Yes I speak out to many cos its a bigger agenda

But preach to the converted is what you say we do

Show them to me man I dont see them, do you? Everybody talking man theyre now talking about

Say its the junglistic sound

That is coming around

And if you choosa di sound and a fuse a it downFrom top to bottom create your own obsession

Master Deeder that is my name and Im kicking all the way

All the way for the fame we four brothers one of a kind

Like no other you will findMilitant scientists

Yes, thats what we are

No were never gonna be laid back

Too busy dodging your attackADF here to kick your arse again

Well give you bass in your face

And were gonna offend

PeaceSee me, hear me

But still you try to box me in

You think you know my mind by the color of my skin

See me, hear me

But still you try to box me in

You think you know my mind by the color of my skinADF back with a lyrical death threat With you ignorant attitudes what the fuck did you expect?

Well mash up your stereo

With a typical body blowAsian distortion

Better tread it with caution

Better treat it with cautionSee me, hear me

But still you try to box me in

You think you know my mind by the color of my skin

See me, hear me

But still you try to box me in

You think you know my mind by the color of my skin
