

Run or Hide (Acoustic)

Run River North

Lying in the dark
With your shadow, shadow hanging over me
Shaking the ground, your footsteps, footsteps calling out my name
Ooh... Ooh... Ooh... Ooh...After the races
But all of these faces keep rolling by me now
I don't understand, these lines in my hand all look the same all look the same
I think I changed my mind about a million times
Oh to run or hide, to run or hide
I'm gonna call this out, I'm coming back somehow
I won't or hide, I won't run or hideLions tearing apart, I see them breaking, breaking but I can't let them start
So I let them in, I feel them, feel them tearing up my skin
I think I changed my mind about a million times
Oh to run or hide, to run or hide
I'm gonna call this out, I'm coming back somehow
I won't run or hide, I won't run or hide... run or hide... run or hide... run or hideThe lions that you hear
You only give what you get
You're trying to keep this in
Spit it out, spit it out
The lions that you hear
You only give what you get
You're trying to keep this in
Spit it out, spit it out
