When

Taproot

Can't seem to find myself in
The smoke filled room again
The lesson of being bored and naive so I've been told
It's just my own problem
That I succumb from the bottom
Looking up at the reflection above of those below
Yeah well I know
(I know)
That there's no point in rushing
(There's no)
I'll get my chance when
The time is right
I'll get mine
In no time
I, I want to shine
With you by my side
When is how?
I hide away
I push myself on everyday
The lesson in time will be the mystery
Lost in these missing things
By doing things created
Looking up at the reflection above of those below
Yeah well I know
(I know)
That there's no point in rushing
(That there's no)
I'll get my chance when

The time is right
I'll get mine
In no time
I want to shine
With you by my side
Now and then
(Then is now)
(Then is now)
Now is now
(Then is now)

(Then is now)
Now and then
Then is now
Now for when
When is now, I know
The time is right
I'll get mine
In no time
I want to shine
With you by my side
The time is right
I'll get mine
In no time
I want to shine
With you by my side
When is how?
