

# There's Never a Forever Thing

[a-ha](#)

Dearest, close your eyes now  
Don't you cry, it's alright  
Lie back, leave the lights on  
It's alright, dear I'll be here through the night  
With you till the first signs of light  
Say the word and I'll come tonight It's alright now  
Don't you cry, hush  
Wipe your tears away  
There's never a forever thing All through the night  
I'll try so hard to be there somehow  
With you till the first signs of light  
Say the word and I'll come tonight Darling, don't you cry
