

Hatchet Job

Hot Snakes

You done what you could
You done what you said
You done it wrong
You done it to death
Ain't no salvage
No distaste
Time is up now
Time pissed away
C'mon find one way
C'mon take another way
Downgrade/destroy
Everything I love
And if I could help
I'd help myself
I'm tired of waiting
For my hack at you
You know you don't have
forever
Hatchet job
Or hatchet fight
You know I don't know whether
It's a job
Or what I like
