Vampire Sun

Cathedral

Skull of God with the devil's eyes
Crowned in fire sodden sky
Beaming rays of genocide
Into virtues magic lieIllusive myth of light enslaves you
Vampire sun it drains youBeg the sword for liberty
Fall before the king of flies
Delirium is flowing free
In our obedience diseaseThe gift of life is reaped of value
Vampire sun it drains youGaze into the face of fire
Dreams descend into the pyreMonolithic angel
Unveil your king to this planet disabled
Mummify the cosmos
With the vision of divinity yeah!Electric vulture flying high
Through the universal eye
To cleanse the heavens with earth soul
The excretion of mankindFeeding from the fangs of virtue
Vampire sun it drains youGaze into the face of fire
Dreams descent into the pyre
