

Two Days Later

[Fink](#)

When we, spoke we, knew it wasn't over
When I, spoke I, know it tortured us both
Two days later, two days later and calm
The love we, feel for, each other will destroy
Futures, we could, have with other people
Two days later, two days later and calm Now we know where we are, where we stand and where we fall
Yeah we know who we are, where we stand and where we fall
Apart apart apart apart, apart apart apart How I, wish that, everything was different
No eye, contact, contact is forbidden
Two days later, two days later and calm
Couldn't just leave it, couldn't leave it hidden
Doe-eyed highlights, is that all we're given
Two days later, two days later and calm Now we know where we are, where we stand and where we fall
Yeah we know who we are, where we stand and where we fall
Apart apart apart apart, apart apart apart
