

# Left For Dead

## Volumes

Left for dead inside my mind  
Alone and fighting for my life  
The floor was cold, I was alone  
Crucified let me go  
Let me fucking go  
Fade in, fading out of consciousness  
Cause everyday feels like I don't exist  
So every night's another near death miss  
Praying for the day that I don't wake up again  
To feel this pain in my mind... fucking take my life  
Take my mind  
Now I'm blind  
I'm in a bind  
Burn it all tonight  
Goddamn

Why don't all of you just bury me tonight God damn man... fuck

Left for dead inside my mind  
Alone and fighting for my life  
The floor was cold, I was alone  
Crucified, let me go  
Let me fucking go
