

If You Know

The Lox

Yo, I might get drunk Jeckel and Hyde
Roll these with lemons
Im tellin' yall niggas Swizz Beatz If you know, like we know, like they know
LOX is the best
If you know, like we know, like they know
Swizz Beatz is the best If you know, like we know, like they know

If you know, like we know, like they know
Well bring it to their chest Yo, if I cant make money then you cant either
If I didnt have to rap I have blown in the freezer
If I cant rock Nikes or Tims with double soles
I have the 9 in the pound and leave your ass full of holes If I didnt push a Benz and I didnt push a Lex
Then the ambulance will come
And they be pushin on your chest If I couldnt hit the studio and make another record
For my double R niggas Ill lay yall on stretchers
Now I might get drunk or I might get high
But my game stay trump and my style stay fly I might hit a dime or I might hit a duece
And when I wanna go to war is when you wanna call a truce
I might buy em cooked dough I might buy em raw
And I might tap your chin or I might cross your jaw Now I might go 18s I might go 20s
I might use dumdums 'cause yall niggas dummies
If you know, like we know, like they know
