

We Didn't Do It

Tegan and Sara

We didn't do it for the money
We didn't do it for the money
I don't know why, I don't know why We didn't do it for the money
We didn't do it for the money
I don't care why, I don't care why You'll go down, down, down
You'll go down, down, down
In my car, it's too full
In my car, it's too full We didn't do it to be happy
We didn't do it to be happy
So I can whine, so I can whine You'll go down, down, down
You'll go down, down, down
On the outside, will I grow this out?
On the outside, will I grow this out? You think I got my way
You think I got my way
You think I got my way
You think I got my way We didn't do it for the money
We didn't do it for the money
For the last time, for the last time You think I got my way
You think I got my way
You think I got my way You think I got my way
You think I got my way
You think I got my way Get in my car, get in my car
Get in my car, get in my car
Get in my car, get in my car
Get in my car, get in my car
