The Shift

Beach Boys

Check out the chick with the new dress on (Wearin' a shift and it looks real fine) The call it a shift and it comes on strong (Wearin' a shift and it looks real fine) When she's got it on, well she can't do no wrong (Wearin' a shift, wearin' a shift) You may think a dress can't do very much (Wearin' a shift really turns me on) With the slit up the side, you can't resist that touch (Wearin' a shift really turns me on) It's tighter than a moo-moo and it's just too much (Wearin' a shift, wearin' a shift) (Turns me on now) Get a shift now (Can't go wrong now) Go wrong now (Turns me on now) Get a shift now (Turns me on now) Turns me on now Get your girl a shift and she'll look real fine (Wearin' a shift and it's just too much) It fits like a glove and drives you outta your mind (Wearin' a shift and it's just too much) She'll ball it with her shift on and we'll have a good time (Wearin' a shift, wearin' a shift) (Turns me on now) Get a shift now (Turns me on now)

Get a shift now
