

# The Crown for the Morbid

## God Dethroned

Hear me  
I am the crown for the morbid  
The fire in the eyes of the rabid  
I am the hate inside the psychotic  
And the fear consuming the phobic I seek to overthrow you  
With the powers given to me  
By your own weak mind  
That turned on you today I am the worst of intentions  
That dwells inside you all  
I am the instinct never mentioned  
That makes humanity fall I am the swine devouring pearls  
Right before your coward eyes  
I am the venom that consumes you  
The serpent in your paradise The crown for the morbid  
The crown for the morbid I am the reason why  
The innocent are slaughtered  
I am the laughing lie  
That's never uncovered The unsilenceable cry  
To kill your beloved  
I am like death inside you  
And I loathe you all Multiple personality  
The sickness eating you  
Your sane psychotic episodes  
I'm the voice that speaks to you Only you will know  
I am as real as can be  
I'm the final words you'll read  
I'll be the end of your story I am the crown for the morbid  
The fire in the eyes of the rabid  
I am the hate inside the psychotic  
And the fear consuming the phobic I am the crown for the morbid  
The fire in the eyes of the rabid  
I am the hate inside the psychotic  
And the fear consuming the phobic I am the crown for the morbid  
The fire in the eyes of the rabid  
I am the hate inside the psychotic  
And the fear consuming the phobic I seek to overthrow you  
With the powers given to me  
By your own weak mind  
That turned on you today I am the worst of intentions

That dwells inside you all  
I am the instinct never mentioned  
That makes humanity fall I am the swine devouring pearls  
Right before your coward eyes  
I am the venom that consumes you  
The serpent in your paradise The crown for the morbid
