

# Had a Dream About You, Baby

Bob Dylan

I got to see you baby, I don't care  
It maybe someplace baby, you say where I had a dream about you, baby  
Dream about you, baby  
Late last night you come rollin' across my mind You got the crazy rhythm when you walk  
You make me nervous when you start to talk But I had a dream about you, baby  
A dream about you, baby  
Late last night you come rollin' across my mind I stand on highway, baby flag me down  
Said, take me daddy to the nearest town I had a dream about you, baby  
Had a dream about you, baby  
Late last night you come a rollin' across my mind Her heart is jumpin'  
It's really somethin'  
The beat is pumpin'  
My heart is thumpin'  
Spent my money on you honey  
My limbs are shakin'  
My mind is breakin' You kiss me baby, in the coffee shop  
You make me so bad, I tell you to stop But I had a dream about you, baby  
Dream about you, baby  
Late last night you come a rollin' across my mind Her heart is jumpin'  
It's really somethin'  
The beat is pumpin'  
My heart is thumpin'  
Spent my money on you, honey My limbs are shakin'  
My heart is breakin' You better please get a rag around your head  
Wearing long dress fire engine red I had a dream about you, baby  
Dream about you, baby  
Late last night you come a rollin' across my mind
