

Questions

Jagged Edge

J E yall, questions
No matter how confident we portray we are
In the back of our mind we all got something Can I do this? Can I do that? You aint gotta dogg me
Girl I do enough of that but the question is
Even with all of my gifts can you love me regardless girl
Without no turning back The problem is that we all wanna know
Is there someone to love us even through the storm
Tears to make us weak, till we let it go
But you got to let it go or youll never really know Maybe I got too much to give
And maybe my love is too strong
And maybe Ill never have a women
Strong enough to understand who I really am Maybe I got too much to give
And maybe the truth is I aint shit
And maybe Ill never be committed
As long as I am living, trying to be a real man Questions, yeah
The questions, yeah
The questions, yeah
The questions
(Questions in my mind) I give all of me and its still not enough
And Im just left to think that I will never have real love
Everything I know I have done for her
And she never even really thought it was too much I just wanted to know if she will love me through the storm
Seems to make me weak to think youll never be secure
You are always gon' be out here alone
No matter what they say, you will always be alone Maybe I got too much to give
Maybe my love is too strong
And maybe Ill never have a women
Strong enough to understand who I really am Maybe I got too much to give
And maybe the truth is I aint shit
And maybe Ill never be committed as long as I am living
Trying to be a real man The questions, yeah
The questions, yeah
The questions, yeah
The questions
(Questions in my mind) Is there a girl to walk beside of me, this lonely walk
And if theres a girl who understands me
She knows what I really want
Is there a girl who is patient enough for the The, the long haul
And why does everybody have these questions

In their minds like all the time? 'Cause I just need to know
Need to know, oh ho and somebody let meMaybe I got too much to give
Maybe my love is too strong
And Ill never have a women to
Strong enough to understand who I really amMaybe I got too much to give
And maybe the truth is I aint shit
And maybe Ill never be committed
long as I am living, trying to be a real manThe questions, yeah
The questions , yeah
The questions, yeah
The questions
