Lemonade (Green Go Remix)

Braids

I don't want to go out there
I don't want to know what you're wearing
There are black diamonds in your eyes
And just so you know your skin is scalingHave you fucked all the stray kids yet?
They're their sleeping in my backyard
They're just looking out for no one
Except to smoke and have some good fun
with their dogs and wives and new sons
And they probably never will hug
'cause she's never really found love
Just a woman who will always love
Just a unhappy with a manAnd what I, and what I found is that we
We're all just sleeping aroundHis daughter used to come hereWith her daughter and her husband
Now no one sees her husband
'Cause her ass has caught the harvest
And her pants have got a good fill
I know the suns beneath the window sillWell I was joking with my lemonade
I told him to get fucked and then get laid
Now what do you say to a man who's got no taste
Who's really got no potential
Except to procreate so inessentialAnd what I, and what I found is that we
We're all just sleeping around.All we really want to do is love
